

# MACHINE TOOL FINANCING

*A powerful asset to your business*

## DID YOU KNOW

In 2015, manufacturing companies are expected to finance more than \$922 billion in plant, equipment and software in the United States. A majority of these businesses will use at least one form of financing to acquire their equipment. Financing is an essential part of growing your business and your buying power depends on it.

Aligning yourself with a finance company allows you to acquire the equipment you need to help your business grow. We're a one-stop shop. With low monthly payments, tax benefits, and fast approvals there's never been a better time to buy equipment. A \$100,000 machine is much more affordable when it's only \$1,875/month.

## Intech Funding makes financing easy!

### 1 ONE STOP SHOP

You're busy managing your business. The convenience of not having to spend countless days and months going through a bank makes it easy to buy the equipment you need. Include software, tooling, accessories and freight.

### 2 LOW PAYMENTS

Get the best equipment you can afford. Low monthly payments can often beat labor costs and outsourcing. We have terms from 2 to 7 years with deferred payments programs and \$1, \$101 and buyout leases.

### 3 FAST APPROVALS

The faster your approved, the sooner you can get the equipment you need to grow your business. Banks and other lenders can be time consuming with an excess amount of paperwork. Intech Funding offer same day approvals.

## We make financing easy

- Low rates and fast approvals
- Less paperwork and super simple contracts
- 100% financing including freight, tooling and accessories
- Transactions from \$10,000 to \$10 million
- Application only up to \$500,000 per machine – no financials
- Easy application - no fee to apply
- Over a BILLION dollars in machine tool financing

*"A strong financial partner  
when you need it."*
